My Dear Teuscher,

Just a word to tell you that the plants arrived safely. Let me congratulate you on the quality of packing.

The Canadian Government inspectors have been at work Saturday the whole day, and to-day Monday. Fortunately the wather is cool and the plants are well preserved. The planting will begin to-morrow morning. Although men cannot be had very easily, I am about sure that thw whole lot will be saved for the time being. Then we will be able to breathe and wait for the better.

I thank you most heartily for all you have done, and I only hope to be able to put you in such a position that you will feel that you have been working for yourself.

Very truly yours,

Frère Marie-Victorin
