NATURE UNDER GLASS:
A NEW WAY TO EXPLORE
THE BIODÔME!

Starting April 15

The Biodôme has an innovative new way for you to virtually visit our four ecosystems, from the comfort of your own home. Nature Under Glass combines animation with sound and video to let you organize your own tour of each ecosystem, as you try your hand at 30 different activities. Come immerse yourself in nature at www.biodome.qc.ca starting April 15!

[BIODÔME]

[BOTANICAL GARDEN]

Main Exhibition Greenhouse
February 24 to May 1

This year, the stars of the show featuring hundreds of multicoloured butterflies and moths are the Papilionidae. With their elegant and agile antics, they put on a magnificent show in the lush atmosphere of the Main Exhibition Greenhouse.

**Butterflies
Go Free**

[NEW]

[INSECTARIUM]
**INSECT TASTING
CELEBRATION!**

Insectarium Garden
June 11, 12, 18 and 19

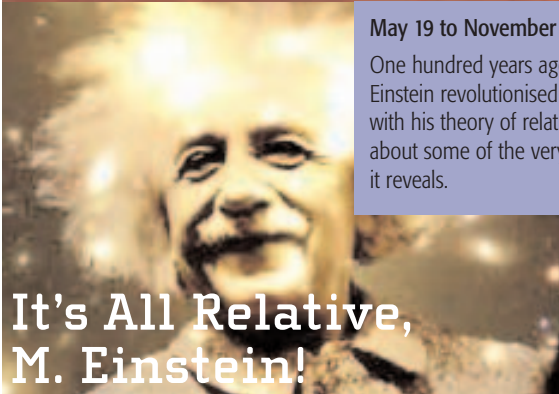

This great outdoor family feast features insect tasting, entertainment for children, information stands on insects and lots more.

May 19 to November 20

One hundred years ago, in 1905, Albert Einstein revolutionised the scientific world with his theory of relativity. Come learn about some of the very odd phenomena it reveals.

[PLANETARIUM]

**It's All Relative,
M. Einstein!**

**Montréal's Nature
Museums**

We have a new name! Montréal's Nature Museums, a name that says what we're all about, that describes us and brings us together – the Montréal Biodôme, Insectarium, Botanical Garden and Planetarium.
